Implementation

Members will be asked to declare their intentions on or before June 30, 2010. The structure will be put in place based on the declared intentions of the congregations. The congregations must meet their current self assigned quota in calendar year 2010 and must hit their declared per student support in calendar year 2011. Members must make equal monthly payments.

Should a Member fall behind two months or greater, a thirty day notice to rectify will be issued. Should the Member not become current after the notification, benefits in the Partnership Formula will immediately terminate with respect to Delegates and Board Seats. A parent's tuition will be locked in for the year once the parent registers their child. Any change in tuition due to a congregational change will occur the following school year.
